Not Guilty.

At 9:30 the jury brought in a verdict
of not guilty.

The fate of Dr. Ben Hickman, the
colored physician on trial under an
indictment for the murder of Dave
Robinson, a colored mail carrier, rests
in the hands of the jury and at 9
o'clock last night, the jury which
balloted in its room in the Windsor
Hotel from the time court adjourned
yesterday afternoon until the above
time and had not reached a verdict.

The trial of Hickman, charged with
the murder of Robinson, was entered
into upon the convening of court Fri-
day morning. The case was called and
much time was taken in securing a
jury. Shortly before noon Friday the
jury was secured and after a state-
ment by Commonwealth's Attorney R.
B. Franklin, the taking of evidence
was begun and which continued until
court adjourned Saturday evening. A
night session was held Friday night.

Yesterday morning the taking of
testimony was resumed and after a
few remaining witnesses had been ex-
amined arguments were made by Hon.
E. M. Dickson for the defendant,
while Commonwealth's Attorney
Franklin argued for the Common-
wealth. Mr. Dickson concluded his
argument at noon and Mr. Franklin
took up his argument upon the con-
vening of court for the afternoon ses-
sion. He spoke until 4 o'clock when
Judge Stout charged the jury, and
they retired to begin their delibera-
tions.

The jury after being out one hour
and thirty-five minutes reported to the
court that they had not reached a ver-
dict, whereupon Judge Stout remanded
them to the care of the Sheriff with
the instructions for them to continue
in their deliberations until ten o'clock
and if a verdict was reached he would
receive it and discharge the men from
service.

The case of Hickman has attracted
considerable attention. At his exam-
ining trial he was acquitted but the
grand jury at the last term of court
returned an indictment against him,
charging him with the murder of
Robinson.

A motion was made for a new trial
in the case of William McCoy, colored,
convicted at the last term of court for
the killing of Frazier White at a col-
ored picnic at the fair ground. Attorney
John Williams argued the case but the
motion was overruled by the court.
The case will be taken to the Court of
Appeals.

Signing More Players.

According to President J. W. Bacon
Paris will have a catcher of consid-
erable note this season for he announces
that he has received the contract of
Wm. Campbell, of Brooklyn, New
York, who will report here on April
11. Campbell is 6 feet tall and tips
the beam at 172. He is highly recom-
mended by several members of the
Brooklyn club also by Alfred Kaiser,
formerly of the Paris team. Although
only about 21 years of age, he has
shown remarkable speed and while not
a member of the Brooklyn club has
played in several exhibition games
with that team.

What President Bacon believes to be
another great find is in the person of
H. S. Blankenship, of Anglin, Ky.,
who is said to be one of the most
promising young pitchers that ever
broke into organized base ball.
Blankenship is 6 feet 1 inch in height
and weighs 191 pounds. Not only can
he pitch but he can fill a position in
the outfield. Last season he establish-
ed a remarkable record with the stick
and had Clark Griffith continued in the
management of the Reds he would
have been given a trip with that club.
From the fact that Mr. Bacon has had
an offer of purchase for the youngster
by a Mountain State League Club he
regards him as a player of much
promise.

Mr. Bacon is now after a young
pitcher who can also play first base. He
is 19 years of age, six feet tall and
weighs 220 pounds. A bulletin receiv-
ed yesterday by the Paris management
announced the suspension of Edward
McKernan, former manager here, by
the Paris club. McKernan made an
offer for the purchase of his release
but has not yet made good.

Wrecks Delay Traffic.

As a result of two wrecks which
occurred on the Louisville and Nash-
ville railroad a few miles North of
Paris Sunday morning traffic was de-
layed for several hours. A car of hay
on a Southbound fast freight was de-
railed at Lair Station and the wreck-
ing train sent from this city struck a
slide at Talbot Station three miles
from Paris, derailing the engine and
the car which contained the crane and
wrecking apparatus. No one was
injured.

Northbound train No. 38, due here
from Knoxville at 3:25, was detoured
over the Maysville branch and at a
point near Pleasant Valley the train
struck a slide, derailing the engine
and one car. Train No. 33, due here at
10:15, Southbound, on account of the
wreck near Shawhan was sent over
the C. & O. This train also struck a
slide and did not arrive here until 4:30
o'clock Sunday afternoon.

FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so

mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

Ruined Again.

The sugar industry in the United States, according to the wall going from protectionists, will be "ruined" by the bill removing the tax from sugar, reducing the price to the consumer approximately 2 cents a pound. This, then, will be the fourth time the industry will have been "ruined," according to the protectionists—always according to protectionists.

The standpatters said the industry would be ruined when Porto Rico sugar was admitted free. But it wasn't. Then they said it would surely perish when Philippine sugar was admitted free and again when Cuban sugar was admitted at a reduced import tax.

But during this time of "ruin," cane sugar production in this country increased materially, and beet sugar production more than doubled.

Two Sugar Trust Checks.

When the bill to repeal the tax on sugar was up for discussion in the House, Asher C. Hinds, of Maine, arose and loudly proclaimed that a certain ledger in the office of the sugar trust in New York would show that the trust had sent checks to the campaign managers of both the Democratic and Republican parties. Mr. Hardwick of Georgia replied. He said that what Mr. Hinds stated was true, but that the same book also showed that the check which had been sent to the Democratic campaign headquarters had been returned uncashed, whereas the one sent to the Republicans had been cashed and spent.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

Where Underwood Stands.

Chairman Underwood, of the Ways and Means committee was interrupted in his speech against the sugar tax by a Louisiana member, who inquired of Mr. Underwood what he anticipated would happen to the sugar industry in Louisiana if the tax was removed from sugar. Mr. Underwood replied frankly that he did not know what would happen to the sugar industry of that state, but hoped it would survive, as it had done on previous occasions. He added there was one thing he did know, however, and that was that the total production of sugar in Louisiana was less than one-tenth of the entire sugar consumption in the United States, and that he did not believe in the principle of taxing 92,000,000 American citizens in order that a comparative few sugar producers might make an extra profit.

The Price of Sugar.

The wholesale price of standard granulated sugar in New York on the day this item is written is \$5.85 per hundred pounds. One week ago today the price was \$5.75, one month ago today the price was \$5.45 and one year ago, \$4.60. These figures are taken from the weekly Statistical Sugar Trade Journal, the official publication of the sugar industry of the U. S.

Whether the sugar trust finds it necessary to increase prices to reimburse itself for the stolen millions it was forced to disgorge to the government, following the exposure of the underweighing frauds, or whether the increases are really justified by a shortage of sugar production abroad, is considered a debatable question by many. But the fact that the wholesale price of sugar in London averages 2 cents a pound less than in New York the year around, shows beyond question the advantage in favor of the consumers in the country where there is neither a sugar tariff nor a sugar trust.

STOCK, CROP AND FARM NOTES

—G. Murrell Middleton, of Shelbyville, sold recently to Elmerdort farm in Fayette county the yearling boar, Duke's Conqueror 151016, for \$135. The hog will be shown at all the State Fair this year.

—County Superintendent Lanter of Clark, has organized the largest boys' corn club in the State, comprising more than 100 members. It is expected that some of these boys will carry off some of the State Agricultural prizes.

—Superintendent Elliston, of the banking department of Secretary of State, stated Friday that the reports from the banks which are now practically all in, show a healthy increase in business. The banks in cities that have loose leaf tobacco warehouses show largely increased deposits, evidently resulting from the splendid prices obtained for tobacco.

—Thomas Hadden, of Ferguson, Logan county, has sold to an Indianapolis company, for \$100,000 in cash, his rights to a wheat binder that he had invented. The invention that Mr. Hadden has perfected is said to be a great improvement over all types of wheat harvesting machines now being manufactured. He has been working on the machine for a number of years.

—S. C. Carpenter, of Millersburg, this county, has sold to Dr. J. N. Hill-sharp, of Drakes Creek, Arkansas, the crack stallion, King of Kentucky, for \$2,500. The horse, which is a handsome chestnut, is four years old, stands 15 3/4 and weighs 1,110 pounds. He is by the noted sire Bourbon King, first dam Peach. King of Kentucky goes five gaits and is very fast in the rack and trot.

—The doctors of Winchester have organized for the purpose of giving a fair, the proceeds of which will be used for the benefit of building a hospital for Winchester. The dates were fixed as August 6-10. The following are the officers: Dr. D. H. McKinley, president; Dr. E. R. Bush, first vice president; Dr. Howard Lyons, second vice president; Dr. Ernest Cole, treasurer; G. Lee Wainscott, secretary.

—The great American hen is coming in for her share of glory, says the Feather. The daily papers and magazines have begun to note her extreme value in this world of important events and saying all kinds of nice things about her. One of the leading dailies tells us that fifteen months of her work would pay off the National debt, and that all the gold and silver produced in the world during the year are not equal in value to her eggs. If the hen would work for one year for the children of the United States alone, she would more than pay the entire cost of their public school education in every State in the Union for two years. This sort of reasoning could go on indefinitely, and completely smother the hen with glory, but it shows what a thing it is to keep plugging away at any proposition. A few years ago it was the "poor old hen," but now all are taking their hats off to her.

—The Executive Committee of the Burley Tobacco Society had two sessions Friday, and adjourned subject to the call of Chairman Lobus. It was announced that the matter of the proposed tobacco factory and its probable location consumed the greater portion of the day, but there was no definite action.

The committee had several proposals as to sites near Lexington and elsewhere accompanied by maps, prices and terms, and considerable time was consumed in the examination of these. A committee from the Commercial Club, offering assistance in the selection of a site and otherwise, was received by the committee.

There was, it was stated after the meeting, no sale of the residue of the 1909 pooled crop. Theodore H. Kirk, of Cincinnati, who is reported to have been negotiating for these tobaccos, was not in the city.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, man-drake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Mr. JAMES G. KENT, of 710 L. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

Son Enlightens Mother as to Queer Remarks After Partners' Names on Program.

The young man's mother was straightening up his chiffonier and she picked up one of his dance programs. This is part of what she read:

1. Two-step. X.
2. Waltz. Miss Brown, pink lady.
3. Two-step. Miss VanSant, blue.
4. Waltz. X.
5. Two-step. Miss Dusall, red, black in hair.
6. Waltz. Miss Dawson, old rose.
7. Two-step. Miss Barnes, gold locket.
8. Waltz. Miss McKay.
9. Two-step. Miss Buchannon.

"Son," said the mother that evening, "what are those remarks after your partners' names? Miss Brown would not be pleased to know she had been called the pink lady."

"Why, mother, that's all right. Lots of the fellows mark their programs like that. You see, a fellow can't always remember a girl when he meets her for the first time, there are so many of them. So, to avoid embarrassment, he notes some distinguishing mark. Now, Miss Brown wore a pink dress. The X indicates, of course, the girl I accompanied to the dance. Miss Dusall wore a red dress, but so did others, so to be sure not to waste any time hunting her I noted that she had a black band around her hair. The girls with whom I am acquainted I know without any descriptive notes. O, it's all right, mother. In that way we never have to go up to a girl and ask her if she is herself."—Indianapolis News.

RATHER CRUDE AND BOLD

Bethel Preacher Gives Congregation of Shellbacks Startling Description of Bad Place.

"I knew the late Clark Russell well," said a Philadelphia shipping reporter. "The unhappy man, racked with rheumatism, lay for many years on his back as helpless as a newborn babe. That, perhaps, was how he came to leave \$100,000. He couldn't spend any of his money, you see."

"Authors make less than is supposed. Clark Russell was once talking to me about authors' earnings. He said that publishers exaggerated the earnings so as to get more people to write for them."

"He said that the millionaire publisher, in order to draw authors on, painted the prosperity of the successful writer with the bold, crude exaggeration wherewith the preacher in the mariners' bethel painted the horrors of the bad place."

A bethel preacher, he explained, was describing the bad place to a congregation of shellbacks.

"Shipmates," he said, "you've seen the molten iron come running out of the furnace, haven't you? It comes out white hot, sizzling and hissing like some kind of snaky, horrible monster. Well, shipmates—"

"The preacher pointed his forefinger at the awed shellbacks."

"Well, shipmates," he said solemnly, "they use that stuff for ice cream in hell."

Good Story, Anyway.

Ollie James of Kentucky, recently a representative, but now a senator, tells of the time when he was driving through a hilly section of his native state partly for pleasure and partly on business connected with his political hopes. He came to a farmhouse where there was a nice looking well and windmill, and he pulled in and asked the farmer if he might have a drink.

"Ah'm sorry, sah," said the farmer. "Ah'd suttinly like to 'comodate you, but I cyant. Ef you all 'll jest drap into Jones' place, 'bout a mile further on, maybe you can git somethin'."

"But I thought I noticed a fine well here on your place," said the senator from Kentucky.

"Why, that's water! I didn't know you wanted water; I thought you asked me for a drink. You sure can have all the water you want."

Quail in Southern California.

Ranchers from the Coachella Valley, who were in Los Angeles today, reported that quail were so thick in the valley that crops of all kinds were being destroyed, despite the efforts of the state game wardens, who are now trapping the birds by thousands and sending them to other sections of the state. One rancher said he saw one covey of quail that must have contained 5,000 birds.

"They were so thick the sun light was shut out when they flew past," he said. "The quail are very wise," he continued, "and hunters find trouble in shooting them, while trapping is still more difficult."—Los Angeles correspondence San Francisco Chronicle.

Visitor—I've just come from the doctor's funeral, but I didn't see any of you there.

Hostess—No, my husband didn't care to go, as funerals always upset him.

Visitor—If you never go to other people's funerals I don't see how you can expect them to come to yours.

A Case in Point.

"It takes all kinds of people to make a world."

"Yes, yes. That's quite true. Two men of my acquaintance stood for an hour on a street corner yesterday and argued about the new football rules."

April Woman's Home Companion

Kathleen Norris, who became famous as the author of "Mother," begins a new serial novel in the April Woman's Home Companion. It is a love story laid in California. Other fiction is contributed by Mary Stewart Cutting, Carolyn Wells, Mary E. Wilkins-Freeman and Mary Hastings Bradley.

Among articles of note in the April Companion are the following: An autobiographical chapter by Howard Pyle, the great American artist; an account full of personal details of the life of Germany's present Crown Princess Cecilie, who is twenty-five years old and the mother of four children; "Making the Most of Moving Pictures," an account of the moving picture business as an educational factor; "Getting rid of the Housefly," "Good Health a Business Asset," in which the author gives much practical advice, particularly to women who work in business for a living, and an Easter talk by the pastor of the Broadway Tabernacle in New York City.

The regular household fashion and home decoration departments are filled with new, interesting facts and suggestions. A notable contribution to the fashion department is entitled "A Day in New York with Miss Gould," in which Grace Margaret Gould, the well known fashion editor of the Companion, takes the reader to see the new fashions at a smart modiste's, then to Fifth avenue, where at afternoon tea the newest and latest gowns are to be seen, and in the evening to a theater, where more of the latest ideas in this line are exhibited.

Kentucky Phosphate Deposits Rich.

The Bureau of Soils, Department of Agriculture, says a dispatch from Washington, has issued a report on the natural phosphates of Kentucky—that part of the Cincinnati anticline extending from Nashville, Tenn., to Lexington Ky., almost to Cincinnati. Mining development has been discouraged by reason of conflicting reports. The report states that it will be only a question of time before the phosphate fields are developed; that while the value of the deposits has not yet been sufficiently developed, mining operations will be on a sound footing.

Brightest Light in the World.

The inhabitants of the Uruguayan capital are seeking fame by advertising the claim that it has the strongest searchlight in existence. It has recently been placed on the roof of the Bank of International Pensions, in the Plaza Libertad, Montevideo. The candle power is 90,000,000 and the light can be seen 11 miles and illuminates every portion of the city.

Spring Millinery.

On account of the backward season and the very bad weather we have decided not to hold our regular spring opening until April 3 and 4. However we are now showing the most exquisite line of tailored and ready to wear hats for early spring that the Eastern markets have ever shipped up. The prices this year will surprise you although the styles are prettier than ever.

To Our Patrons.

We respectfully direct your attention to the extensive and choice stocks of Spring merchandise now assembled in our store. They comprise the very largest and most select gathering of new merchandise that has ever been collected under our roof at the opening of a season.

Every section of the store offers most complete selection. Our assortments mirror every authoritative new fashion, every new style-thought for Spring. Everything is fresh and brand new, as all goods in the store when our reorganization took place have been entirely disposed of.

Our buyers spent many weeks in the Eastern markets engaged in selecting from the products of the foremost manufacturers and importers the various lines of foods we now have the pleasure of offering you. They have exercised the most scrupulous discrimination in their selection, being ever on guard against the admission to our stocks of unauthentic styles or unreliable qualities.

Being constantly in touch with market conditions they were in a position to buy under the most favorable circumstances, which permits us to offer very attractive values. From every point of view we are in a position to serve you better than at any time in our history.

Our Dress-making Departments are taking orders now for before Easter delivery, Miss Brennan and Miss Brown having returned from the East with all the latest style ideas.

Uncle Sam Buys Buick Auto.

The following item appears in the Washington Post: "A Model 28 Buick machine was delivered last week to the Inspector of Public Buildings and Grounds at Washington, D. C. The Inspector will make his daily trips in this car.
"The sale was made in a novel way. The Government invited leading manufacturers to submit models from \$900 to \$2,000 to a committee of expert mechanical men. The cars were driven to the designated place and the drivers then dismissed. The committee went through its examination and after all makes had been gone over and discussed, the Buick was selected.
"The kernel in this nut is that the Model 28 Buick was selected by the Government Committee of Expert Mechanical Men from among all others on its own merit and without a salesman or factory representative being present at the examination.
"See that Model Buick on exhibition at Yeakes & Pritchard's and ask for demonstration."

Dear People:-

While I am about it I might as well publish my letters in your paper here. I have no secrets. I will tell you lots of things you ought to know about furnishing your home. See my letters to "Amy" each week.

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Many Driven From Home.

Ever year in many parts the
country thousands are driven from
their homes by coughs and lung dis-
eases. Friends and business are left
behind for other climates, but this is
costly and not always sure. A better
way—the way of multitudes—is to
use Dr. King's New Discovery and
cure yourself at home. Stay right
there with your friends and take this
safe medicine. Throat and lung trou-
bles find quick relief and health re-
turns. Its help in coughs, colds, grip,
croup, whooping cough and sore lungs
make it a positive blessing. 50c and

according to science, are the things

The Men Who Succeed

as heads of large enterprises are men
of great energy. Success today de-
mands health. To all is to fail. It's
utter folly for a man to endure a weak
run down, half alive condition when
Electric Bitters will put him right on
his feet in short order. "Four bottles
did me more real good than any other
medicine I ever took," writes Chas.
B. Allen, Sylvania, Ga. "After years
of suffering with rheumatism, liver
trouble, stomach disorders, and de-
ranged kidneys, I am again, thanks
to Electric Bitters, sound and well."

Epidemic of Measles.

There is quite an epidemic of German measles in the city. Quite a number of the grown up folk as well as the little ones are suffering with the disease which is in a light form.

Ladies Attention.

Don't forget the dates of our spring millinery opening, April 3 and 4. You are cordially invited to attend.
MRS. CORNE WATSON BAIRD.

Boosting Agricultural Train.

Mr. Warren B. Meek, of Paintsville, was in the city yesterday in the interest of the agricultural train which will pass through this city Friday.

Vinol makes rich, red blood and creates health and strength for the weak and aged as nothing else can.

MILLERSBURG ITEMS.

Mr. J. P. Auxier last week received a letter from an attorney at Joplin, Mo., informing him that he was one of several heirs to a rich estate, coming to him by his grandfather, Mr. Davis. Mr. Auxier is the son of Mr. L. G. Auxier, once a prominent wholesale dealer at Cincinnati. The estate is valued at \$250,000. Mr. J. P. Auxier, accompanied by his brother, Fred Auxier, left yesterday for Joplin to look after their interests in the estate.

The University of Cincinnati Glee Club and the Mandolin Club, who will appear at the opera house Saturday evening, March 30, are supported by the Musical Association of the college. The association arranges each year an annual tour of ten days during the spring vacation. The membership of the combined clubs is limited to twenty-eight, the 1911-12 club is the best ever sent out by the university. The different sections are well balanced and the voices blend. The details of good part singing are worked out with unusual finish. The programs are constructed into two parts:
Part 1—A classy exhibition of culture, fine singing and good comedy.
Part 2—Scenes depicting college life, college songs, college fun by college men.

The Mandolin Club of ten is an added feature this year, and is under the direction of Mr. W. E. Weigel, '98. The members of this club give cello, violin and cornet solos, which all contribute to the enjoyment of the program. Mr. Morris Lazarus is the baritone soloist this year. He possesses rare qualities as a comedian and impersonator. Mr. B. H. Heuck, the eccentric Dutch comedian, adds spice and variety to the evening's entertainment. Hopf, the German tenor, in a repertoire of songs will surely please all who hear him. Seats on sale at Smith and Waddell's drug store. Prices—children 25 cents; general admission 35 cents, reserved seats 50 cents.

Spring Opening.

Our annual Spring Millinery Opening will be held this season on Wednesday and Thursday, April 3 and 4. We will endeavor to eclipse all our former efforts and show the ladies who want to be well dressed the proper thing in up to the minute headgear. Stunning, mannish effects in walking hats, derbies, trotters and all the new things for street wear. Exclusive styles direct from the Eastern markets in dress hats, the largest stock we have ever shown will be on display. Our new trimmer is from one of the largest wholesale houses in the East and certainly knows her business. She will be glad to assist the ladies in making their selection and suggest new ideas pertaining to the proper thing for each individual type.

THEATRICAL.

"A ROYAL SLAVE" PLEASES.
The Elgin, Ill., Daily News of September 23, says of "A Royal Slave," which appears at the Paris Grand tomorrow night:

"Theatre goers of Elgin were treated last night to one of the most powerful melodramas presented in this city during the present season. The play, 'A Royal Slave,' is a Mexican production and with a perfect scenic background and a well balanced cast, proved a rare treat for the large audience present.

Walter Hubbell, who first appeared before an Elgin audience two years ago in the title role of the same play, again appeared as Aguilu, the royal slave, and interpreted his part perfectly. He was given encore after encore by his auditors.

Lester R. Calvin, playing the part of an American newspaper correspondent in Mexico, is deserving of special notice, his imitations and songs being especially pleasing. George Fitch and Miss Irene Solomon added color to the performance by their finished acting.

The play was remarkably well staged and the costumes worn by the actors and actresses of costly texture. The fourth act is one of the most forceful scenic effects ever presented in the Elgin opera house and Mr. Hubbell was much applauded during the entire scene."

A special feature of the production is "The American Chanticleer Girl." Prices 25, 35, 50 and 75 cents. Seats on sale at Mitchell and Blakemore's.

Maccabees Initiate Big Class.

The Paris Tent No. 48 Maccabees of the world, initiated a class of twenty-nine members into the secrets of the order last night. The degree team of the Lexington lodge composed of twenty-five men came over on a special interurban car arriving here at 7:30 o'clock, and put on the work in the three degrees in grand style. They were accompanied by a number of the members of the Lexington lodge.

Mr. M. F. Elkin, State Organizer, has been in the city for several days working up the class, and his efforts were very successful. A special dispensation was secured, with the result that twenty-nine new members were received into the order last night, bringing the total membership of the Paris tent to one hundred and four.

Following the work in the several degrees the members of the local lodge and the visitors repaired to the restaurant of Kid Stout where an elaborate banquet was spread. The following are the new members received into the lodge last night:

Basket Ball, Wednesday Night.

The boys' team of the Paris High School basketball club will meet the team from the Lexington High School at the High School gymnasium in this city Wednesday evening. The contest promises to be one of great interest. The local boys have a long line of victories to their credit, having suffered but two defeats this season. The Lexington team has equally as good a record, and a few weeks ago met the strong team of the Covington High School, being defeated after a hard fight.
